Summer term, 2 [™] semester	
The second semester provides an overview of the whole range of lexicography. E university offers special knowledge. All courses will be taken at one of the participa universities. The local organisers change every year.	
Advanced modules 1 to 10: 10 modules as block seminars or continuous courses with 2 semester hours. All student required to travel. The teachers of the partner universities hold the block seminars, the teacher holds his or her seminar throughout the semester. The students have to acquire 30 ECTS, may, however, acquire more (maximum 45 ECTS), organisation plan according to spannouncement.	local 0 (35)
A1: Metalexicography A2: History of lexicography 5 each A3: Modeling and representing data in digital lexicography A4: Research into dictionary use A5: Special field lexicography and terminology A6: Computational lexicography A7: Dictionaries and translation A8: Lexicography and lexicology A9: Dictionary planning and production	
A10: Learner lexicography	

Master EMLex_Schedule (Overview) - https://emlex.eu.usc.gal/web/about-2

Aims and contents	
oomonto	All students have to have 60 ECTS points after the first year.
	Winter term, 3 rd semester
	The third semester is dedicated to specialisation as well as to application of the knowledge acquired in the second semester; at the same time the master thesis is prepared. The contents depend on the respective universities.
10	In-depth module 1: Series of lectures by the teachers of the different universities via video. The students have to evaluate the lectures and write a review on a dictionary.
10	In-depth module 2 (home module): Special topic (depending on the seminars offered at the home university). Here special requirements are possible.
10	In-depth module 3: Internship (home module): A four to six-week-internship at a publisher or a company or a research institute (during the semester break or during the semester).
Σ 30	
	Summer term, 4 [™] semester
25-30	Accompanying seminar to the master thesis (home module)
Σ 30	Master thesis
Σ 120	Total number of points

In the second semester, one university will be the centre of studies for all students. Therefore, the number of participants is limited; travel is financed via Erasmus or similar programs. The teachers of the partner universities stay for 7 to 10 days; travel is financed via Erasmus or similar programs. A block seminar lasts from Monday to Friday. For information about the exams see separate organisation plan.

Notes on the 3rd semester

The in-depth module 1 will be done with the help of online lectures or integrate current lectures on campus.

Notes on the 4th semester

The ECTS points for the master thesis granted according to the individual university regulations will open up further possibilities (accompanying seminars, etc.).
